Art Unit: 1775

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

2. Claims 50-58 are rejected under 35 U.S.C. 102(e) as being anticipated by Lee et al (5,700,518).

The rejection is maintained for reasons of record in Paper No. 4.

3. Claims 50-58 are rejected under 35 U.S.C. 102(b) as being anticipated by Bennett et al (5,560,839) or Svensson (5,380,408) or Peters et al (5,567,526 or 5,236,740).

The rejection is maintained for reasons of record in Paper No. 4.

4. Applicant's arguments filed 12-23-02 have been fully considered but they are not persuasive. The examiner has carefully reviewed the references, and has maintained the above references. The phrase 'substantially intact hard constituent particles' in the claims do not cause the claims to be overcome by the prior art, since the art shows that the carbide particles remain in a layer without the binder where the coating is applied, and thus the rejections stand.

5. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
